VICTORIA CITY BY-LAWS.

No. 207.

A BY-LAW.

THE MUNICIPAL COUNCIL of the Corporation of the City of Victoria enacts as follows:—

Sec. 1. It shall be the duty of the City Engineer to make out, or cause to be made out, and report to the Council a general specification for the construction of house or building connections with the branch, main or common sewers, and for the sewerage and plumbing connected therewith, of all buildings to be hereafter erected in the City of Victoria.

Sec. 2. When such report or any amendment thereof has been adopted by the Council, the said specification, in its original or amended form, shall become the standard city specification for the works referred to in section one of this By-law.

Sec. 3. The owner of any building or premises used as a dwelling-house, hotel, restaurant, saloon, shop, store, office, factory, wash-house, or otherwise, shall, provided such building or any other portion thereof be within one hundred and fifty feet of a branch, main or common sewer, cause all water-closets, sinks, wash-tubs, baths, etc., in the said building, and down pipes from the roof of such building, to be properly connected with such sewers in accordance with the provisions of this by-law; and shall cause all existing plumbing in connection therewith to be placed in good sanitary condition, to the satisfaction of the City Engineer.

Sec. 4. Whenever it shall be deemed desirable to have a connection made between any building or premises and a branch, main, or common sewer, the City Engineer shall send to the owner of such building or premises a written notice to have such connection made, accompanied by a copy of the standard specification aforesaid. And if, after the expiration of 30 days from the date of such notice, or such extended time as may be granted as hereinafter mentioned, the connection is not made in accordance with such specification the City Engineer may have the work done at the expense of the owner of said building or premises, and such expense may be recovered by the Corporation in any Court of competent jurisdiction from such owner, or by distress and sale of the goods and chattels of such owner; provided, however, that the City Engineer may grant for cause such extension of time to make the connection as he may deem advisable, not however exceeding thirty days, and after the expiration of such extended time may have the work done as aforesaid, at the expense of the owner, which expense may be recovered as aforesaid.

Sec. 5. All privy vaults, dry-earth closets, and cess-pools in use for buildings coming under clauses 3 and 4 of this by-law, shall be cleaned out and filled up with clean dry earth or gravel, and water-closets substituted therefor where necessary.

Sec. 6. The sewerage and plumbing connected therewith of all buildings, both public and private, hereafter erected in the City of Victoria, shall be executed in accordance with the specification aforesaid, and with plans approved of by the City Engineer.

Sec. 7. Suitable drawings and detailed description of the sewerage and plumbing connected therewith of any proposed building or premises required to be connected with the sewers, shall in every case be submitted for approval to the City Engineer by the architect of such building or premises, or by the person at whose expense such building is to be connected, and if approved, said drawings or copies thereof made at the expense of the parties connecting the building shall be

filed in the office of the City Engineer; all such plans to be legibly drawn in ink on heavy white paper or on tracing cloth to a scale of eight feet to the inch.

Sec. 8. The architect or person erecting any building, or constructing any sewerage or plumbing work, shall send due notice to the City Engineer when the construction of the said building is sufficiently far advanced for inspection of the sewerage and plumbing aforesaid, and no part of any such sewerage and plumbing shall be covered up or concealed in any way until after it has been examined and approved in writing by the City Engineer.

Sec. 9. Whenever called upon so to do by the City Engineer, the owner of any building erected in the City of Victoria prior to the passing of this by-law shall forward to the City Engineer, to be placed on file, drawings and description of the sewerage and plumbing connected therewith of said building.

Sec. 10. No person other than a licensed plumber, or pipe-layer authorized by the City Engineer, as the case may require, shall be employed or permitted to make any connection with a branch, main, or common sewer, or with any sewer leading thereto, or to do any plumbing connected with the sewerage of any building.

Sec. 11. No extension of any sewerage work previously accepted, or alteration to, or new connections with, such work, shall be made, except under the authority of the City Engineer, as provided for in this by-law.

Sec. 12. In tenement houses, containing more than one family, there shall be one water-closet for each family, and a separate cistern for each closet; in other houses, however, a group of closets, but not water-closets, on different floors, may be supplied from one tank.

Sec. 13. Except as provided in section 4 of this by-law, no person shall construct, reconstruct, alter, or extend any portion of the sewerage or plumbing work connected therewith of any building or premises, or make connection of such with any branch, main, or common sewer, unless he shall have previously made application for and obtained a permit therefor; such application is to be made upon the printed form supplied at the office of the City Engineer, and shall be accompanied by drawings and a detailed description of the proposed work as provided in section 7 of this by-law.

Sec. 14. A permit shall be granted or refused within seven days of the time of filing the application, and the permit of the City Engineer (if granted) shall be valid for three months from the date of issue, but no street shall be used for the making of the connection with any branch, main, or common sewer for a greater length of time than the time mentioned in the permit.

Sec. 15. If the City Engineer shall find that the said plans and detailed description do not conform with the requirements of the specification adopted from time to time by the Council in respect to the sewerage and plumbing connected therewith, of buildings and premises in the City of Victoria, he shall not issue any permit for such sewerage or plumbing, and it shall be unlawful to proceed therewith.

Sec. 16. After a plan and detailed description have once been approved of by the City Engineer, no alteration or deviation from the same will be allowed, except on the written permission of the said Engineer.

Sec. 17. All existing sewers conveying sewage from any premises into any surface drain, box drain, cess-pool, or other receptacle, or discharging sewage into the harbour or upon the shore of the Straits of Fuca, other than at the outlet for the sewage at Clover Point, shall so soon as a sewer is constructed in a street adjoining such premises, be disused, taken up, relaid, altered, improved, or reconstructed, as the City Engineer may deem advisable, and the said premises shall be connected with the general sewerage system of the City.

Sec. 18. No exhaust from steam engines, or blow-off from steam boilers, shall be connected with either public or private sewers.

Sec. 19. No person shall use any sewer in an improper manner, by placing or allowing any substance other than ordinary sewage to enter the sewer through opening, trap or fitting connected therewith.

Sec. 20. The expense of keeping in repair branch sewers to buildings and premises shall be borne by the proprietor of the building or premises using any such branch sewers. If any such branch sewers, or the traps connected therewith, shall at any time become choked by reason of the admission or placing therein substances other than ordinary sewage matter, the owner or occupier of the premises drained by such sewer shall defray the cost of cleaning the sewer.

When two or more premises are drained by any branch sewer, the City Engineer shall determine by whom and in what proportion the cost of repairs, or of removing any obstruction, shall be paid.

Sec. 21. Any sewer, soil pipe, waste pipe, ventilating pipe, water-closet, urinal, sink or other fitting, laid, used or constructed otherwise than in accordance with this by-law, or the specification approved by the Council, or which shall, in the opinion of the City Engineer, be or become bad or defective in quality, shall upon notice in writing from the City Engineer, be removed or repaired in the manner determined and within the time fixed by the City Engineer; and the City Engineer may, should he think fit after due notice, remove or repair the said defective sewer or fitting, and charge the owner or occupier of the premises with the cost incurred, which may be recovered by the Corporation in the manner provided in section 4.

Sec. 22. No arrangements shall be made for supplying water-closets except by self-closing cocks, and no arrangement shall be made for cleaning water-closets or privy vaults by waste pipe from wash basins or sinks, or by any other means of evasion; but they shall be fitted up with the fixtures and appurtenances belonging to them respectively.

Sec. 23. All openings for ventilation made in accordance with the specification adopted by the Council shall at all times be kept open and perfectly free from obstruction. Every occupier shall see that all openings to drains upon his premises, whether for ventilation or otherwise, and all traps and other fittings, are at all times in good order, clean and free from obstruction.

Sec. 24. The City Engineer, or other person acting under his authority, may, upon giving due notice, enter, at all reasonable hours, into any house or premises connected with the sewers in order to examine whether the sewers and fittings in such house or premises are in proper order. Any person refusing such admission, or in any way hindering such officer in the execution of his duty, shall be liable to the penalty hereinafter mentioned.

Sec. 25. No person shall remove the cover of any man-hole, ventilator or flush-tank, unless duly authorized by the City Engineer, or shall deposit rubbish or garbage of any description in any sewer, man-hole, gully-trap, ventilator or flush-tank.

Sec. 26. Whenever the words "City Engineer" occur in this by-law or in the said specification, they shall be taken to mean the person holding the office of City Engineer for the time being, or such other person as may be duly authorized to act in his behalf.

Sec. 27. Any person violating any of the provisions of this by-law shall be liable to a penalty not exceeding fifty dollars.

Sec. 28. This by-law may be known as the "Sewer Connection Regulating By-law, 1893."
